DEO Experiment Clarification Form

Interactive fillable PDF for labmate confirmation

Purpose: confirm experiment mapping, concentration/condition logic, day indexing, and transfer-stage data (A/B).
Instruction: fill only what is certain; use notes for uncertain items.

Filled by		Date	
Contact		Version	

1) Major Experiment Mapping (3 majors)

Summary Figure	Raw Folder	Theme	Confirm	Notes
Alginate summary TIFF	App65 DEO+Alginate	Alginate concentration	☐	
Y-27632 summary TIFF	App80 DEO	Y-27632 concentration	☐	
DEO density summary TIFF	DEO App81 P8	DEO density	☐	

2) Condition Setup

Experiment	Group label	Concentration	Add Alginate?	Magnification	Notes
App65					
App65					
App80					
App80					
App81					
App81					

3) Day Logic and Growth Tracking

Define Day0 first.

Day0 date (YYYY-MM-DD)	App65	App80	App81
Entry			

Experiment	Actual date	Day no.	Condition(s)	Image count	Growth note

4) Transfer Stage (A and B currently in transfer)

Please clarify whether transfer data A/B should be included in final summary.

Set	Folder/path	Date range	Include in final?	Related major exp	Notes
A			☐ Yes ☐ No		
B			☐ Yes ☐ No		

Large transfer notes area:

5) Detailed Figure Traceback

Detailed figure	Parent experiment	Exact day	Exact condition	Selection rule
Alginate D7 and D13 TIFF				
Y-27632 Day 6 10x TIFF				

6) Free Notes

Return the filled PDF and I will convert it into a finalized logic map plus machine-readable table.
